WELCOME TO VALLEY CITIES!

For the past 50 years, our mission at Valley Cities has been to provide the highest quality mental health and substance use disorder treatment services. We help individuals and families live healthier and more productive lives by providing care that is flexible and tailored to each person's needs. Our philosophy of care is client-centered and focuses on recovery, resiliency, and wellness. We view your recovery as a deeply personal and unique process of healing. Our multi-disciplinary teams are here to support you with integrated, whole person care. We welcome the opportunity to work alongside you and look forward to providing services that will help you achieve your goals.

GETTING STARTED

You may request to start services by visiting any of our outpatient clinic locations (back page of this booklet) or by calling (253) 833-7444. Valley Cities offers both in- person and virtual (telehealth) appointment options.

BENEFITS AND PAYMENT

Your insurance and benefits will be verified before any appointments are scheduled. We will ask for a copy of your insurance card and may also ask for a state issued driver's license or identification card. You will also be given the option to have your picture taken, which will be added to your chart for additional verification.

If payment for services is required by your insurance, all payment, including coinsurance, copayments, or deductibles are due at the time of an appointment.

In the event that your insurance benefits change, or we are unable to obtain funding from any other source, a sliding fee scale (based on your income and household size) may be available. All sliding-scale services must be deemed necessary and approved by Valley Cities. Please note that all sliding-scale discounts are a limited resource and may not be available at the time you request them.

If there are any questions or concerns about your benefits, you may use the following resource or speak to a staff member.
